Dear colleagues,

CESS organises an “ORIENTATION DAY” on WEDNESDAY 9 NOVEMBER 2010. The day is targeted at all researchers interested in experimental methods (but not necessarily familiar with them). The workshop will provide an overview of various experimental methods and will include a tour of the CESS lab facilities. Please do forward this invitation to people you think might be interested in the event.

LOCATION: NUFFIELD COLLEGE; LARGE LECTURE ROOM

PROGRAMME

1.45 – 3.00  Overview of Experimental Methods in Social Sciences
3.00 – 3.15  break
3.15 – 4.00  How to conduct an experiment at CESS (Michèle, Hector)
4.00 – 4.30  Visit of the CESS facilities

RSVP by sending an e-mail to michele.belot@nuffield.ox.ac.uk
Registration deadline: 5 November 2011

ABOUT CESS

The Centre for Experimental Social Sciences is based at Nuffield College (3 George Street Mews). We are promoting the use of experimental methods across social sciences (in a broad sense). The Centre has a computer lab with 25 computer stations, we also have the capacity to conduct on-line experiments and provide support for the design of experiments in the field. We have a large pool of experimental subjects including students in Oxford and non-students (we have spent substantial effort in recruiting people from all ages and walks of life living in the Oxford area).

We organize many events throughout the year: Invited lectures with prominent experimentalists, informal lunch workshops, workshops where researchers present their experimental design and informal coffee gatherings. If you are interested in knowing more about us, please visit our website (www.nuffield.ox.ac.uk\cess). If you would like to be informed about the events we organize throughout the year, join our Google group Experimental Social Sciences in Oxford (send an e-mail to Michele.belot@nuffield.ox.ac.uk and I will add you to the members list). We welcome everyone, and encourage students to become members.

Also, do not hesitate to contact us at any time if you would like to talk about a research project and would like to know how we could help.
